Dear Dr. Voelz: *George*

This letter is to thank you for your participation as a Panel Member on the Scientific Review Committee for the Palomares, Spain Program Review. The final report is of such high quality because of the commitment to excellence of each panel member.

The next step in the process is for the Department of Energy and Centro de Investigaciones Energéticas, Medioambientales y Tecnológicas to decide which recommendations each wants to support either jointly or separately. The final report clearly outlined important recommendations to which both agencies need to give careful consideration.

I enjoyed our interactions and learned a lot of information about the site. Thank you for your hard work and professionalism. You should be proud of the final report, your efforts helped to make the program review a huge success.

With sincere gratitude,

*Barry Fountos*
